## Pattern

1. First you will make 12 crocheted hearts, in my example I used 3 colors for the hearts and made 4 of each.
  - a. Make a slip knot leaving a 4 inch tail and then chain 4.
  - b. Make 3 treble crochets into the furthest chain from the hook.
  - c. Make 3 double crochets into the same chain in step b, chain 1.
  - d. Make 1 treble crochet into the same chain in step b and then chain 1.
  - e. Make 3 double crochets and then make 3 treble crochets into the same chain in step b, then chain 2.
  - f. Make a slip stitch into the same chain you have been using for the entire heart and then fasten off leaving another 4 inch tail.

2. Using your color for the garland, chain enough stitches to make a 6ft long string. Leave a tail at the beginning and at the end long enough for you to hang your garland when done.
3. Your finished chain of stitches should be approximately 72 inches long, so you will be placing a heart every 6 inches so that all 12 hearts are evenly hung.
4. From the end of the chain, measure 6 inches and select the first chain.
5. Insert the hook into the chain and yarn over with both tails of your heart, and then pull through to complete a slip stitch.
6. Yarn over again and fasten off. Now tie the two tail ends into a bow and trim the ends.
7. Measure from the heart you just attached another 6 inches, and complete steps 5 and 6, keep doing this until you have hung every heart on the garland.
8. You can display the garland with the bow sides out or with the bows hidden.

This pattern can be used with pom poms, daisies, any shape your heart desires!
